

SEC Rule 606 (formerly known as Rule 11Ac1-6)

Hampton Securities (USA), Inc.

SEC-Required Report on Routing of Customer Orders

Quarter Ending June 30, 2010

Hampton Securities has prepared this report pursuant to a U.S. Securities and Exchange Commission rule requiring all brokerage firms to make publicly available quarterly reports on their order routing practices. The report provides information on the routing of "non-directed orders" - any order that the customer has not specifically instructed to be routed to a particular venue for execution. For these non-directed orders, Hampton Securities has selected the execution venue on behalf of its customers.

The report is divided into four sections: one for securities listed on the New York Stock Exchange; one for securities listed on the Nasdaq Stock Market; one for securities listed on the NYSE Amex, or regional exchanges; and one for exchange-listed options. For each section, this report identifies the venues most often selected by Hampton Securities, sets forth the percentage of various types of orders routed to the venues, and discusses the material aspects of Hampton Securities' relationship with the venues if applicable.

Securities Listed on New York Stock Exchange

Summary Statistics:

Non-directed orders as percentage of total customer orders	100.00%
